**Activation of STD and PRO licenses with SK**

---

# Activation of your current STD or PRO license

## MAGNIFI 4.X USERS WITH A SOFTWARE KEY (SW)

**Your current HK number = required *License code* to access 5.0**

1. Retrieve your license key number from the current 4.X version you are using.
  1. Backstage
  2. Help menu
  3. *Manage...* icon
  4. *Software* tab
2. Write down the *License ID* number

The screenshot displays the Magnifi 4.8R24 software interface. On the left is a dark sidebar with navigation icons: Home, Acq. Summary, Report Summary, Save, Material Database, Documentation, Preferences, and Help. The main window is titled 'Magnifi 4.8R24 - [Default setup]'. The 'Help' menu is open, showing sections for System, Instrument, Software License, Contact Information, Privacy Options, and Third-Party Licenses. In the 'Software License' section, the 'Manage...' button is highlighted with an orange box. Below this, a 'License Information' dialog box is open, showing the 'Software' tab selected. The 'License ID' field contains a long alphanumeric string, and the status is 'Valid'. An orange arrow points from the 'Manage...' button in the main window to the 'License ID' field in the dialog box. The dialog box also displays 'Currently detected' information: Company: Eddyfi NDT, Client: David Veilleux, Type: Unlimited, Expiration: N/A, and Packages: [redacted]. Buttons for 'Request activation...', 'Release license...', and 'OK' are visible at the bottom of the dialog.

# Activation of your current STD or PRO license

## MAGNIFI 4.X USERS WITH A SOFTWARE KEY (SW)

**Your current HK number = required *License code* to access 5.0**

1. Make sure your computer is connected to the internet.
2. Connect your hardware license key (Magnifi 4.x) to your computer.
3. Start Magnifi 5.0
4. License Validation Failure window will automatically open.
5. Click on *Manage*

# Activation of your current STD or PRO license

## MAGNIFI 4.X USERS WITH A HARDWARE KEY (HK)

1. Enter the same number as your 4.X key (software or hardware).
2. Click Refresh and Activate.

**Use the ACQ license**

---

# Use Magnifi with ACQ license

## CHANGE LICENSE KEY NUMBER TO CHANGE ACCESSIBLE FEATURES

**ACQ license code = MAG4.X license code + “-A”**

1. Access the *Manage License* window:
  1. *License* menu in Backstage
  2. *Manage...* button
2. Click on *Release*. *License Code* field becomes editable.
3. Add “-A” at the end of the *License Code* displayed in the field.
4. Click Refresh and Activate.

1113338888  + “-A” = 1113338888-A

or

A1a2bb344- ... + “-A” = ...GF43b-A

**Use TubePro**

---

# Use TubePro license

## ACCESS TUBEPRO FOR ASSOCIATED KEYS TO MAGNIFI

**TubePro license code = MAG4.X license code + “-T”**

1. Download and install TubePro 5.6:  
<https://eddyfi.com/en/software/eddyfi-tubepro>
2. Start TubePro.
3. License Validation Failure window will automatically open.
4. Click on *Manage*
5. Enter your license code
6. Click Refresh and Activate.

1113338888  + “-T” = 1113338888-T
