CAPTURE V5.1 RELEASE NOTES

Release date: December 17th, 2025

Build version: v5.1

Cloud-based Licensing System

This software is now activated through a cloud-based licensing system. Please contact your Eddyfi Technologies sales representative to learn how to access this latest version.

New Features

- TOFD is available on CAD parts
    - TOFD calibration tools adapted to be used on CAD parts
    - Fully compatible with 2PA + TOFD or 2TFM + TOFD inspection on CAD parts

Improvements

- Improved UI responsiveness
- Improved overall software stability
- Improved imaging refresh rate during acquisition
- Viewer mode (free license with limited features) is now accessible
- All .exe deliverables digitally signed (prevent Windows security alerts during installation)

Resolved Issues

- Important memory leaks fixed
- B-scan view now accessible on single-shot group (conventional or PA)
- Stability in the TFM panel
- Auto-sizing RWT for corrosion mapping
- Side view accessibility inconsistencies
- Averaging in TOFD is not always applied
- Depth modification taken into account in analysis mode
- Offline activation

Known Issues, Limitations & Restrictions

- Capture GO: User session access in Windows accessible in the System information of the Report tab
- Capture GO: FMC recording does not work in Capture 5.
    - FMC recording works properly in Capture 4.1.2

Minimum System Requirements

- Processor: Dual core CPU @2GHz
- Operating systems: Windows 10 (64bits) or Windows 11
- Memory: RAM 8GB
- Disk space: 4GB
- Display: Minimum screen resolution of 1024×768
- Administrator rights: Required for installation and software activation

Recommended System Requirements

- Processor: Quad core CPU @2.4GHz
- Operating systems: Windows 10 (64bits) or Windows 11
- Memory: RAM 16GB
- Graphics card: Not used for processing
- Disk space: 32GB - SSD
- Administrator rights: Required for installation and software activation
